

Introduction to

# INTERNET OF THINGS.

By Saswat Samal and Sanket Sanjeeb Pattanaik

# Welcome to the IoT Workshop 2.

# Hello Everyone! ☐

I'm **Saswat Samal**, your host, with **Sanket Sanjeeb Pattanaik**, will make you get acquainted with IFTTT and will make a project together.

  /saswatsamal

  /sanketsanjeebpattanaik

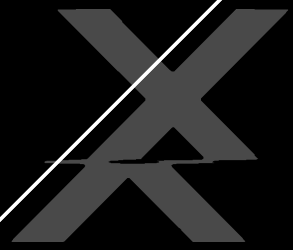

# Recap of what we have learnt in the last session

- What is IoT?
- History of IoT.
- Industrial Status and Application
- How IoT Works?

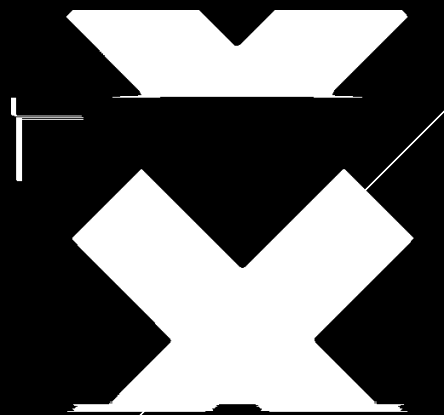

Today we will explore

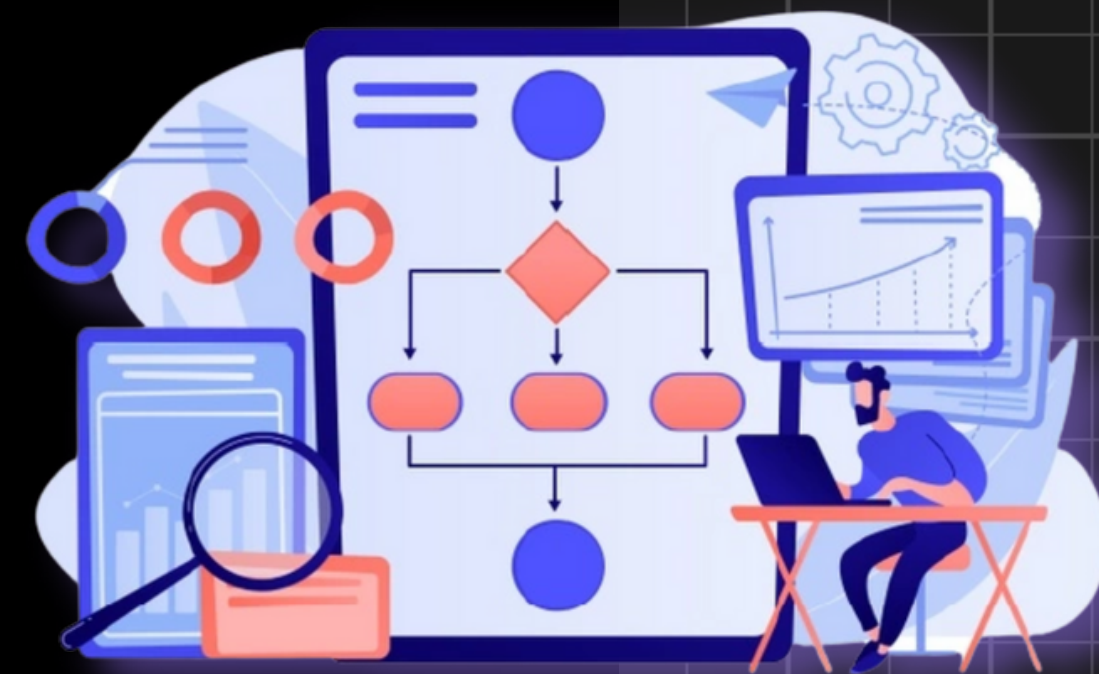

# IFTTT

# IFTTT

**IFTTT ("ift") is a service that lets you create connections between different web-services and applications.**

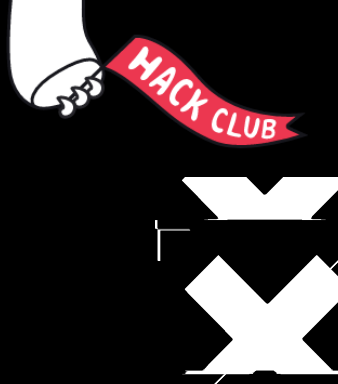

*No Coding Required.*

It just like

# AUTOMATION

# WORKING

Create "Recipes"

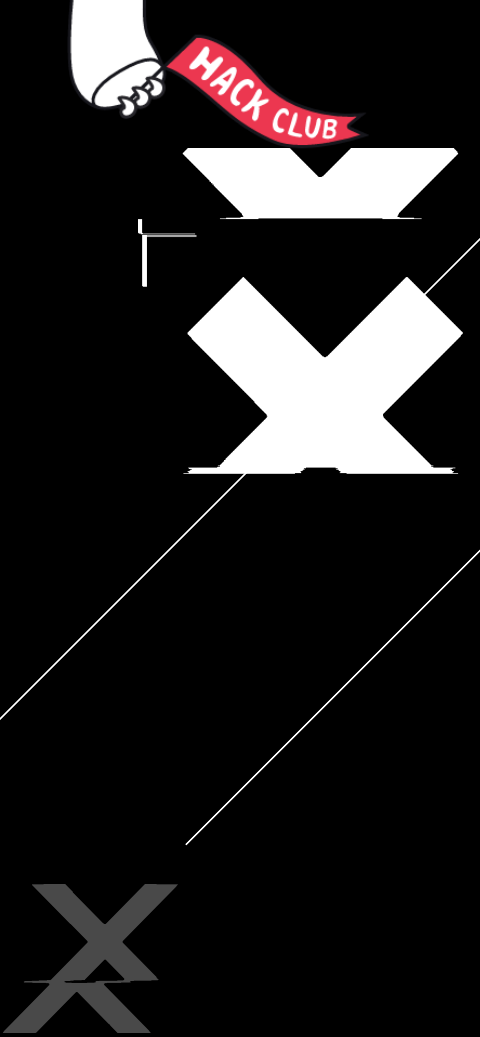

Receipe

**IF THIS THEN THAT**

Trigger

Action

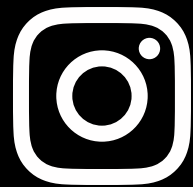

# Now, lets get our hands dirty!

Open your Laptops and follow the steps to make your first automated Tweet.

# THANK YOU.
